April 18, 2020
9 AM - 3 PM

Sponsored by Encompass Health Lakeview and Kenney Orthopedics

About The Walking School

The clinic will introduce treatment approaches for improved function and return to a more active lifestyle with increased independence. Understanding the dynamics of prosthetic devices and how to properly control them will enable individuals to walk/run, move side to side, bend down, jump and climb stairs with more confidence. Techniques introduced will increase strength and flexibility helping participants operate more efficiently and safely. One-on-one opportunities and "hands-on" participation techniques will apply. Professionals in the field of rehabilitative therapy and sport will receive high level training in advanced exercises appropriate for use with participants of all ages to improve ambulating. Amputees of all ages are encouraged to attend every clinic date.

Paralympic Athlete Instructors

Dennis Oehler - A below knee amputee, in the 1988 Paralympic Games he set a world record in the 100 meter event and won gold medals in the 200 and 400 meter events. Dennis has been working with amputees for more than 25 years, and became an Honorary Lifetime member of the American Academy of Orthotists and Prosthetists in 2002.

Todd Schaffhauser - An above knee amputee, he competed for the Paralympics Track and Field Team of 1988 and won a gold medal in the 100 meter event. Todd has worked in the prosthetic community for more than 25 years and became an Honorary Lifetime Member of the American Academy of Orthotists and Prosthetists in 2002.
